

# ABOUT US

## LEADING FAUCET MANUFACTURER IN THAILAND

As one of the leading faucet manufacturer in Thailand, we are committed to manufacture high quality, durable and affordable stainless steel (SUS-304) faucets, bathroom and kitchen accessories. Since established in 1995, we currently have over 500 retail outlets nationwide and export to over 20 countries around the world.

Our high performance business strategy builds on our expertise in designing and manufacturing of stainless steel faucets, bathroom accessories and kitchen items. Our success is driven by our people and their commitment to deliver the best results by executing with excellence and continuous improvement, operating responsibly, and adapting to innovative technologies.

We are committed long term to the mission of delivering high quality products that not only are long lasting but also affordable and satisfy our customers' needs as we want to continually evolve our company to be in the best position to serve our customers.

500+

We have over 500 retail outlets nationwide

20+

Partners in over 20 countries around the world

50+

1,000+

We have products for faucets, bathroom accessories, kitchen equipment More than 1000 items to choose from

## WHO WE ARE

**Rely (Thailand) Co., Ltd.** was founded in 1995 by **Mr. Wasun Itthirojanakul**. We are one of Thailand's leading manufacturers and distributors of bathroom & kitchen accessories, with a specialization in premium stainless steels (SUS-304). Our state-of-the-art manufacturing plant is located in Nakhonpathom, Thailand.

## WHAT WE DO

We have over 500 retail outlets nationwide and partners in over 20 countries around the world. We have a high-performance business strategy that gives us a superior advantage in the global market. Rely (Thailand) Co., Ltd. offers the highest level of expertise in designing and manufacturing stainless steel bathroom and kitchen products. Our success can be attributed to our people. Each employee is dedicated to excellence and takes ownership of their functional responsibilities. Evolving by innovative technologies creates a superior international production facility.

## OUR VALUES

We are committed to delivering premium quality products and services that satisfy our customers' needs. We also take our environmental impact and social responsibility very seriously. Our factory has an efficient waste emission process aligned for ecological conservation.

## FAUCETS

### Stainless Steel SUS-304 (Food Grade)

WS<sup>o</sup> uses only food-grade stainless steel (SUS-304) which has high resistance to corrosion, germs and acid contamination. Hence, the purity of water that passes through our faucets can be ensured.

### Water Saving Innovation

WS<sup>o</sup>'s faucets are designed to save water and protect our environment.

### Ceramic Valves

WS<sup>o</sup> uses the best quality cartridge ceramic valve, tested for durability and leakage-free, with more than 500,000 open and close operations.

### No Hazard Contaminations

In the manufacturing process no chemical contaminants were used.

## SPECIFICATIONS FOR AUTOMATIC SENSOR FAUCETS

The control box it is easy to install.

The Plastic Control Box is designed particularly for Electric Adapter and Solenoid Valve to avoid them from Water Leaking, moisture, dust. Our special Stainless Steel Stop Valve is also special designed for closing the water in time of maintenance for the future. Our stainless steel stop valve is specially designed to close water during maintenance.

Control Box Size (W x L x H) : 150 x 105 x 55 mm.

Power Supply : Power Supply : AC 220 V 50 Hz. (Other Voltage is also available upon customer's request).

Power Outlet : DC 12 V

Power Consumption : Waiting 1.5 W & Operation 5.0 W

Detectable Range : Standard set 100 mm. (Adjustable to 50-250 mm.)

Detectable Time : 30 +/- 2 Sec/time

Ambient Temperature : 5-40° C

Maximum Humidity : 90% RH

Water pressure : Min. 0.2 Kg/cm<sup>2</sup>, Max. 10.0 Kg/cm<sup>2</sup>

Flow Rate : Less than 6.0 L/Min at pressure 1.0 Kg/cm<sup>3</sup> (Other flow rates are also available upon customer's request).

## HANDHELD BIDET SPRAYERS

### Stainless Steel SUS-304 (Food Grade)

WS<sup>®</sup> uses only food-grade stainless steel (SUS-304), which has high resistance to corrosion, germs and acid contamination. Hence, the purity of water that passes through our handheld bidet sprayers can be ensured.

### Gentle spray

WS<sup>®</sup> handheld bidet sprayers are designed for a gentle spray, suitable for cleaning, rinsing, and cloth diaper spraying.

### High water pressure resistance

WS<sup>®</sup>'s handheld bidet sprayers support for high water pressure resistance.

### No Hazard Contaminations

No chemical contaminants are used during the manufacturing process.

## SHOWERS

### Stainless Steel SUS-304 (Food Grade)

WS<sup>o</sup> uses only food-grade stainless steel (SUS-304), which has high resistance to corrosion, germs and acid contamination. Hence, the purity of water that passes through our showers can be ensured.

### Double piping system\*

WS<sup>o</sup> uses a double piping system for our rain showers to prevent scalding upon contact.

### Adjustable\*

WS<sup>o</sup> rain showers are adjustable, allowing you to easily change the height of the showerhead to suit your preference.

### No Hazard Contaminations

No chemical contaminants are used in the manufacturing process.

# SAFETY PRODUCTS

## Safety & Quality

Enhancing safety and reducing the risk of injury from slipping and falling in the bathroom, especially in homes with elderly individuals or those with mobility issues, is crucial. Consumers should select safety equipment from trusted manufacturers that are recognized both domestically and internationally. Our products are certified by

CIT Certificate  
Construction Institute of Thailand

Universal Design Guide Book  
Chulalongkorn University

### STANDARD ADA\* and ASTM Compliant Grab Bar

WS<sup>o</sup>'s grab bar has been tested for structural strength levels set by ADA\* and ASTM standards.

### Stainless Steel SUS-304 (Food Grade)

WS<sup>o</sup> uses only food-grade stainless steel (SUS-304) which has high resistance to corrosion, germs and acid contamination.

### Test Up to 200 kg. of Force Pull

Through intensive testing, WS<sup>o</sup>'s grab bar and mounting devices are ensured to withstand more than 200 kg (440 lbs) of force.

### Wide Variety

WS<sup>o</sup>'s grab bars combine reliability with a wide range of styles, sizes, lengths and finishes so it can be utilized in different parts of your bathroom.

### Save Regular Replacement Cost

Using only the finest materials, together with our state-of-the-art production technology, WS<sup>o</sup> is renowned for its commitment to quality and product durability.

\* Grab bars are ADA Compliant when properly installed

“TEAK 304 TYPE” is a product that combines the strength of SUS-304 stainless steel with the natural beauty of teak wood sourced from environmentally friendly teak farms. Experience the essence of nature with this exceptional blend.

 The wall brackets are made of SUS-304 stainless steel hairline finish which has high resistance to corrosion, germs, and acid contamination.

 Teak, a robust tropical hardwood, has been tested in our factory to withstand a pull weight up to 150 kg. meeting international standards.

Teak wood naturally protects itself from various types of insects. Its color and texture are naturally suited for both dry and wet areas, providing a warm touch that doesn't accumulate cold, ensuring comfort.

## BATHROOM CHAIRS

A bathroom chair for the elderly and those with mobility issues

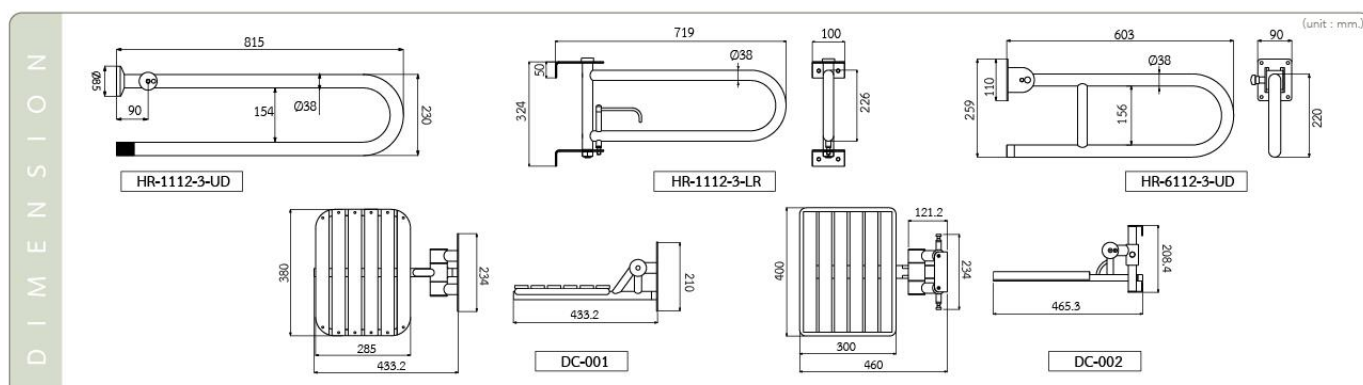

- This product combines the strength of SUS-304 stainless steel with a wood-patterned PVC material, offering high resistance to corrosion, germs, and acid contamination. It is also water- and moisture-resistant, ensuring it does not rot or swell.
- Withstand weight up to 120 kg.
- Foldable design allows for easy storage and space-saving.

## BATHROOM ACCESSORIES

### Stainless Steel SUS-304 (Food Grade)

**WS** uses only food-grade stainless steel (SUS-304) which has high resistance to corrosion, germs and acid contamination.

### Easy to Maintain

Stainless steel doesn't fade, discolor or rust, making **WS**'s products easy to maintain and clean. If the surface of the product appears dull, a quick polish will restore its shine.

### Save Regular Replacement Cost

Using only the finest materials, together with our state-of-the-art production technology, **WS** is renowned for its commitment to quality and product durability.

## SHOWER ENCLOSURES

### Stainless Steel SUS-304 (Food Grade) Fittings\*

WS<sup>o</sup>'s hardware uses only food-grade stainless steel (SUS-304) which has high resistance to corrosion, germs and acid contamination.

### Tempered Glass

WS<sup>o</sup> uses durable tempered glass of 6 / 8 / 10 mm. of thickness to ensure your safety. Tempered glass is 4 to 5 times stronger than standard glass and when broken it will shatter into small oval pebbles.

### 5 Year Warranty

WS<sup>o</sup> provides a 5-year warranty for all the hardware parts and we have fully tested the enclosures using a weight of 200 kilograms for more than 500,000 open-and-close operations.

### Free Installation & Measurement\*

WS<sup>o</sup> provides professional installation teams to take precise measurements and install custom shower enclosures and accessories, allowing full flexibility to customize your shower experience to perfectly match your bathroom.

\* Free measurement and installation services are available exclusively in Bangkok and its metropolitan area. For other provinces, travel fees will be charged based on the distance. For export business, we can provide services with or without glass included.

# WS<sup>®</sup> SHOWER ENCLOSURES (TEMPERED GLASS)

At **WS**, we manufacture and install premium-quality shower enclosures for a wide range of projects in Thailand and internationally. Our portfolio includes housing estates, condominiums, hotels, and private homes, with over 100 completed projects. Crafted with precision and installed by skilled technicians with over 40 years of experience, our enclosures are designed to enhance both functionality and aesthetics.

## HOW TO CARE FOR STAINLESS STEEL PRODUCTS

Stainless steel must be cleaned regularly to preserve the metal's integrity and maintain a pristine appearance. Recommended frequency is once a week for routine cleaning.

**Stainless steel Products:** Use a soft cleaning cloth with warm water to remove accumulated dirt. Wipe dry with a soft cloth to avoid water spots.

**Shower Head:** After using for a while, mineral deposits that come with water might get stuck inside the shower heads. Run water for a minute to flush out any deposits. If there are holes that are still stuck, use your fingers and pinch the holes. Repeat this process until you no longer see mineral deposits.

- However, if there are stains on stainless steel, use a lime wedge with salt, rub on the stain. If the stains are still present, pour some baking soad in and rub gently with a Scotch Brite type scouring pad. Rinse with water and dry with a soft cloth.
- Routine maintenance is highly recommended because when stainless steel maintenance is neglected, corrosive substances can accumulate on vulnerable surfaces.

**⚠ Under these circumstances, stainless steel might get stains or corrode:**

- NEVER USE the following products on stainless steel:  
Liquid containing hydrochloric acid cleaner, Chloride cleaner, Abrasive cleaner, All-purpose cleaner, Chloride bleach If these corrosive cleaners are used in the bathroom, make sure the air is circulating.
- DO NOT use dirty cloths to wipe stainless steel products.
- Ordinary carbon steel brushes or steel wool should be avoided as iron particles that are left behind can lead to rust and corrosion.
- Corrosion is accelerated in coastal areas with salt-spray exposure, and in areas where de-icing salts are used during winter.
- Use stainless steel products with underground water that contains high mineral deposits.
- In constuction area where concrete particles are present. Highly recommend to install stainless steel products after the construction is finished.

## INVESTING IN LOCAL COMMUNITY PROJECTS

DONATING MONEY, MEDICAL DEVICES AND PRODUCTS TO LOCAL HOSPITALS,

- UNIVERSAL DESIGN CENTER (UDC)
- NAKHON PATHOM HOSPITAL, NAKHON PATHOM
- HUAYPLOO HOSPITAL, NAKHON PATHOM
- LUANGPHOPERN HOSPITAL, NAKHON PATHOM
- SINGBURI HOSPITAL, SINGBURI
- INBURI HOSPITAL, SINGBURI
- INVESTIGATION DIVISION POLICE 7
- FOUNDATION FOR GOOD GOVERNANCE ON MEDICINE
- BANGKAEWFA INDUSTRIAL AND COMMUNITY EDUCATION COLLEGE, NAKHON PATHOM
